

Andrew Grant: Managing Director, Food Waste Recyclers

Andrew has been involved in organics recycling for more than eight years and has spent the past two years working with commercial and industrial food waste solutions, including food waste collections, educating staff on recycling, developing green reporting, and providing complementary recycling solutions (paper, cardboard, metals, polystyrene, glass) to various groups, including cafes, restaurants, green grocers, schools, nursing homes, hotels, food manufacturers and child care centres.

Andrew has also worked with government bodies and undertaken contracts for remote area recycling solutions and education, in areas such as the Whitsundays and the Torres Strait.

Andrew has been involved in providing complete recycling solutions for a major food event in Adelaide (over 550 guests) and is focussed on developing this aspect of the service.
